

## **BYPASS G (Supplement)**

- BYPASS G is a general purpose supplement which can be used as a safe drylick to supplement sheep, cattle, goats and deer on green feed.
- BYPASS G, although not designed for horses does not contain any ingredients toxic to horses. Therefore the product can be fed out in paddocks where horses may have access to this supplement. This makes BYPASS G ideal for the hobby farmer, who may have several types of animals running in the same paddocks.
- Young growing animals obtain the most advantage from BYPASS G as the protein requirement for a young animal is higher.

### **Ingredients**

Formaldehyde treated vegetable protein meals, lime, salt, vitamin and mineral premix, vegetable oil and dical phosphate.

### **Typical Analysis**

Crude Protein (vegetable protein only).....	21%
Metabolisable Energy Mj/Kg.....	7.2
