

BYPASS S + RUMENSIN™ (Supplement)

• **BYPASS S + R** is a dual purpose supplement which can be used as a beef feedlot concentrate or as a drylick to supplement sheep and cattle on dry feed. A supplement to **boost stock** (eg before market) with its higher protein levels (in comparison to D + R which is more of a maintenance feed). Ideal for trade weight cattle and weaners where protein requirements are high.

S + R is NOT a self-regulating feed, see feeding rates and suggestions to give you control of your stocks intake of the feed

- **RUMENSIN™** increases the efficiency of the energy available from all feed consumed by the animal.
- Reduces the incidence of feedlot bloat.

Rumensin™ is a registered feed ingredient for enhancing productivity by increasing the rate of weight gain and improving feed conversion efficiency of the animal.

Precautions- Ensure Rumensin™ productivity enhancer for sheep and cattle **is not fed to other animal species as toxicity may occur.** Do not exceed the recommended dose rate.

CATTLE	Withholding period	NIL
SHEEP	Withholding period	1 day
SHEEP	Export slaughter interval	7 days

ANALYSIS

Crude Protein.....	20%
NPN Crude Protein Equivalent.....	12%
TOTAL 32%	
Metabolisable Energy Mj/Kg.....	7.4
Urea.....	5%MAX
Salt.....	5%MAX

USAGE

Feedlots

Recommended for use in total feedlot rations to ensure maximum growth rates, minimum fat cover and optimum feed conversion rates. **BYPASS S** is ideal for young trade weight and weaner cattle where protein requirements are high.

Trade cattle 10% (100Kg/tonne of finished feed)

SUPPLEMENTARY FEEDING SUGGESTIONS

- Recommended as a supplement for dry feed at 250g/hd/day mixed with grain and/or roughage.
- Can be fed straight from the bag into troughs as a drylick. Feed daily for 5 days to accustom the animal to urea, then put out enough for 3 days.
eg (number of cattle x rate x days 20hd x 250g /hd/day x 3 days = 15kgs) then replenish every 4th day.
This gives you control of the intake of **BYPASS S + R**

Cattle 250g per head per day

Sheep 25-30g per head per day.

SAFETY

BYPASS S + R is a safe supplement to use, however, if mixed with grain the usual precautions of increasing grain slowly apply.

S + R INGREDIENTS

VEGETABLE PROTEIN MEALS, LIME, SALT, VITAMIN AND MINERAL PREMIX, UREA, MOLASSES, RUMENSIN™ AND ACID BUFF
